Yo Gabba Gabba “Wonky” Squares

By Linda Ambrosni
Finished quilt size 40” x 50”

This quick and easy crib size quilt showcases Hoffman’s, Yo Gabba Gabba Collection. The blocks are cut “wonky” style and then squared to a common size. Enjoy making this quilt, it is meant to be fun!!!

Fabric requirements:	6 color coordinate fabrics	3/8 yd each
	2 smaller scale Yo Gabba Gabba fabrics	3/8 yd each
	1 large scale Yo Gabba Gabba fabric	3/4 yd to allow for fussy cutting
	Binding	3/8 yd

Cutting Instructions:

From the 6 coordinating colors cut a total of 10 – 12 1/2 inch squares.

From the 2 smaller scaled Yo Gabba Gabba fabrics, cut 3 – 12 1/2 inch squares from each

From the larger scaled Yo Gabba Gabba fabric cut 4 – 12 1/2 inch squares, fussy cut your favorite character in the center of each square

Block construction; The blocks are cut and sewn in a “wonky” style. There is not a wrong way to cut them as they will all be squared to a consistent block size after sewing.

”Wonky” Cutting:

Be sure when “wonky” cutting that all fabrics are cut facing up and the groups cut together must be sewn together. Below is a guide line for cutting and sewing the blocks. Keep the cutting and sewing order the same as shown; just vary the angles of your cuts between groups. The fussy cut large Yo Gabba Gabba fabric blocks will stack and cut with one color coordinate to make sure the centered character was framed nicely. The remainder of the fabrics are cut in groups of 6 squares, alternating one color coordinate with one figured character print in the stack. Therefore, for this quilt, cut 2 groups of 6 fabrics and 4 groups of 2 fabrics (for the fussy cut blocks).

Refer to the following diagram for cutting and sewing guidelines. The smaller versions are simply alternate cutting ideas if you are not used to cutting and sewing this wonky style.

Block Detail:

Alternate Ideas:

“Wonky” Sewing:

Once a group of blocks are cut, take the top center piece A and put it on the bottom of the pile. Your top fabrics will now show what your first block will look like. Since you alternated your color coordinate fabrics with your figured fabrics this top block will show one of each, as will the entire stack below it. Sew this top block together joining section A to Section B sewing along cutting line 4. Press, and then join to section C sewing along cutting line 3. Press, and then join to section D, sewing along cutting line 2. Press, and then join section E sewing along cutting line 1. Yes! the sections do not align properly. Orient any excess fabric to the outside of the block trying to keep the next cutting line straight. If at any time the seam line to be joined is not straight, simply straighten by trimming away any excess fabric using your rotary cutter and ruler. Once all 20 blocks are constructed, the blocks will need to be squared to a consistent size. Mine squared to 10 ½ inches.

Blocks are laid out in a grid of 4 by 5, alternating the frames of each block from a colored fabric with a Yo Gabba Gabba fabric, reference quilt photo.

Sew all rows, quilt, bind and cuddle.
